Summer 2022

**A Look Back over 2021 - 2022**

English Week

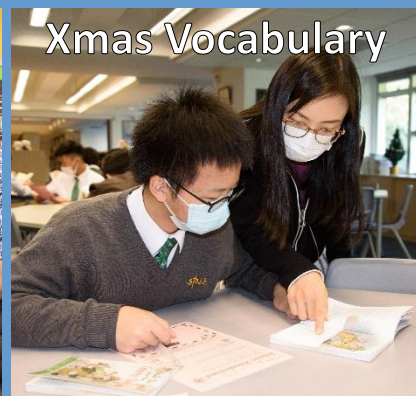

SPSS Info Day

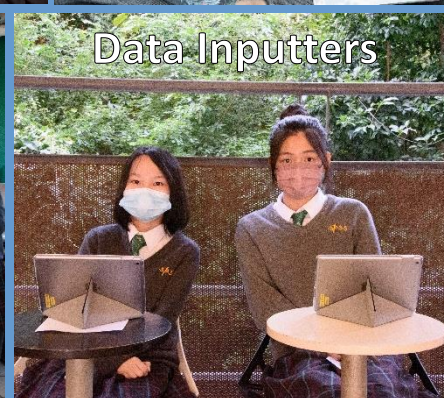

WIS Local Link

**Let's take a look back over the 2021 – 2022 academic year.** As we all know, St. Peter's Secondary School always seems to have one or two (or three or four) things going on. This year has brought plenty of activities for *everybody*; students, teachers, parents, alumni & guests. Sometimes it's hard keeping up, so here's a look back: St. Peter's Info Day, West Island School Local Link, STEM Workshop, Applied Learning, Campus Music, Green School, and lots more...

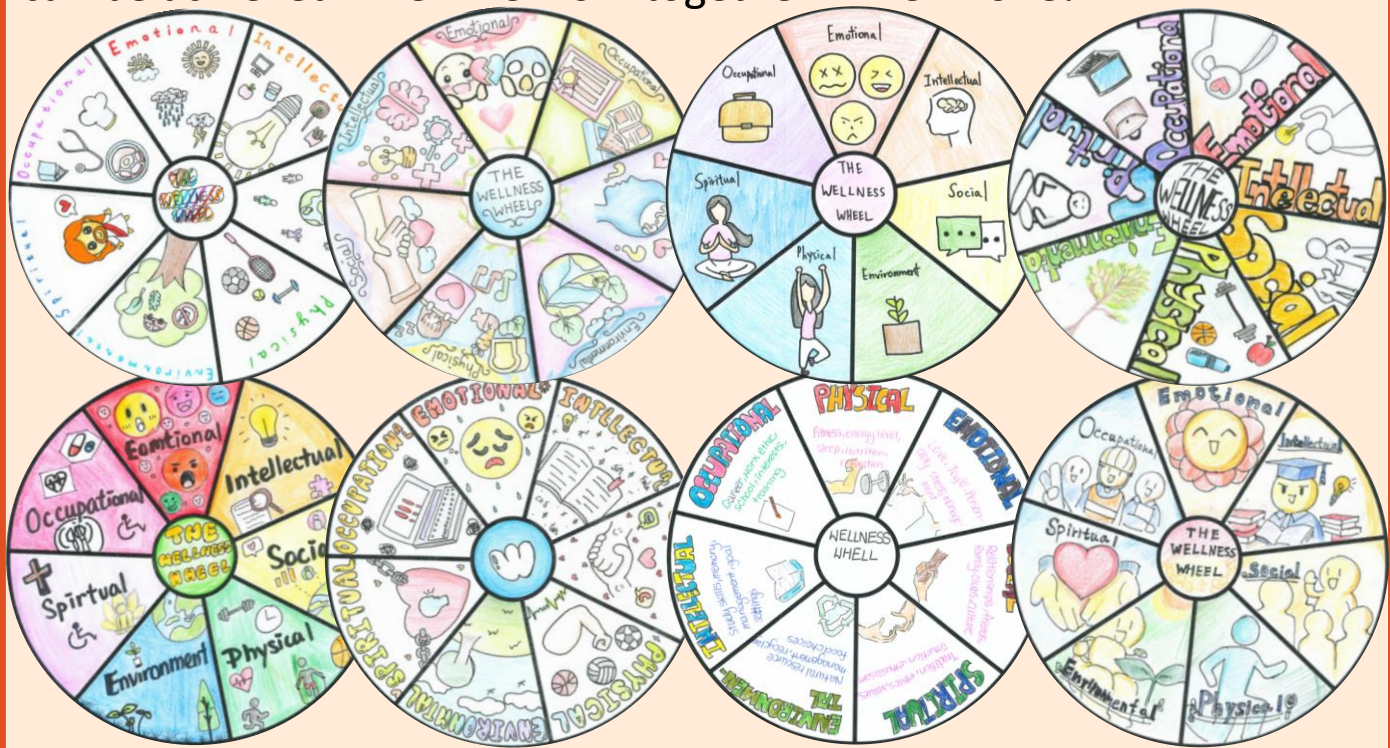

As always, the **highlights** of the SPSS English calendar are the English Weeks. If you can remember, our first **English Week** focused on everything that is Christmas - **Winter Wonderland**. We had everything except snow: Fun, games, prizes, redemption, traditional Christmas books, Christmas carols, Christmas songs across the campus, competitions, and so, so, so much more.

The second **English Week** focused on our bodies and minds. There are 8 elements to the Wellness Wheel, and each one is as important as the other. **The Inter-class Wellness Wheel Competition** produced some amazing work and are a great example of creativity and what can be achieved when we work together – Well Done!

To wrap up the year, the Focus Spray and Perfume Making Workshops were both a huge success. Different smells invoke different emotions and memories, and many SPSS students made some of their own.
